Notes for segment wise information:

TOTAL EQUITY AND LIABILITIES

- i) Operating segments are components of an enterprise for which discrete financial information is available that is evaluated regularly by
 the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Group's chief operating decision maker is the CEO and Managing Director.
- ii) Cost related to research and development are included under identifiable expenses for the purpose of segment reporting

Segment wise capital employed

Segregation of assets (other than trade receivables), liabilities, depreciation and amortization and other non-cash expenses into various reportable segments have not been presented as the assets are used interchangeably between segments and the Group is of the view that it is not practical to reasonably allocate the other assets, liabilities and other non-cash expenses to individual segments and an ad-hoc allocation will not be meaningful.
