Independent Auditor's Report

To the Members of Persistent Systems Limited

Report on the Audit of the Condensed Interim Consolidated Financial Statements

Opinion

1. We have audited the accompanying condensed interim consolidated financial statements of **Persistent Systems Limited** ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') and its associate as listed in Annexure 1 , which comprise the Condensed interim consolidated Balance Sheet as at 31 December 2020, the Condensed interim consolidated Statement of Profit and Loss (including Other Comprehensive Income) for the quarter and nine months ended 31 December 2020, the Condensed interim consolidated Cash Flow Statement and the Condensed interim consolidated Statement of Changes in Equity for the nine months ended 31 December 2020, and a summary of the significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate condensed interim financial statements and on the other financial information of the subsidiaries, the aforesaid condensed interim consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including in accordance with Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34') specified under Section 133 of the Act, of the consolidated state of affairs of the Group and its associate as at 31 December 2020, and its consolidated profit (including other comprehensive income) for the quarter and nine months ended 31 December 2020, its consolidated cash flows and the consolidated changes in equity for the nine months ended 31 December 2020.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the condensed interim consolidated financial statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the condensed interim consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 11 of the Other Matters section below is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Condensed Interim Consolidated Financial Statements

4. The accompanying condensed interim consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these condensed interim consolidated financial statements that give a true and fair view of the consolidated state of affairs (consolidated financial position), consolidated profit or loss (consolidated financial performance including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including in accordance with Ind AS 34 specified under Section 133 of the Act. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of condensed interim consolidated Ind AS 34 financial statements. Further, in terms of the provisions of the Act, the respective Board of Directors /management of the companies included in the Group and its associate, covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the condensed interim consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These condensed interim consolidated financial statements have been used for the purpose of preparation of the condensed interim consolidated financial statements by the Directors of the Holding Company, as aforesaid.

5. In preparing the condensed interim consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group and its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group and its associate or to cease operations, or has no realistic alternative but to do so.

6. The Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group and its associate.

Auditor's Responsibilities for the Audit of the Condensed Interim Consolidated Financial Statements

7. Our objectives are to obtain reasonable assurance about whether the condensed interim consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these condensed interim consolidated financial statements.

8. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

   - Identify and assess the risks of material misstatement of the condensed interim consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Group and its associate have in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the condensed interim consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.

- Evaluate the overall presentation, structure, and content of the condensed interim consolidated financial statements, including the disclosures, and whether the condensed interim consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group and its associate to express an opinion on the condensed interim consolidated financial statements. We are responsible for the direction, supervision, and performance of the audit of the condensed interim consolidated financial statements of such entities included in the condensed interim consolidated financial statements, of which we are the independent auditors. For the other entities included in the condensed interim consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

9. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

10. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

11. We did not audit the condensed interim financial statements of nineteen subsidiaries, whose condensed interim financial statements (before eliminating inter company balances/transactions) reflect total assets of ₹ 5,080.39 million and net assets of ₹ 1,688.09 million as at 31 December 2020, total revenues of ₹ 3,822.13 million and net cash inflows amounting to ₹ 125.56 million for the nine months ended on that date, as considered in the condensed interim consolidated financial statements. These condensed interim financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the condensed interim consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the reports of the other auditors.

    Our opinion above on the condensed interim consolidated financial statements, is not modified in respect of the above matter with respect to our reliance on the work done by and the reports of the other auditors.

12. The condensed interim consolidated financial statements also include the Group's share of net profit (including other comprehensive income) of ₹ Nil for the nine months ended 31 December 2020, as considered in the condensed interim consolidated financial statements, in respect of one associate, whose financial statements have not been audited by us. These condensed interim financial statements are unaudited and have been furnished to us by the management and our opinion on the condensed interim consolidated financial statements, in so far as it relates to the aforesaid associate is based solely on such unaudited condensed interim financial statements. In our opinion and according to the information and explanations given to us by the management, these condensed interim financial statements are not material to the Group and its associate.

    Our opinion above on the condensed interim consolidated financial statements, is not modified in respect of the above matter with respect to our reliance on the financial statements certified by management.

13. The condensed interim consolidated financial statements for the corresponding quarter and nine months 31 December 2019, included in the accompanying condensed interim consolidated financial statements as comparative financial information, was subject to review by us vide our review report dated 30 January 2020.

Our opinion is not modified in respect of this matter.

Nature and purpose of reserves

a) Securities premium
Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of Section 52 of the Companies Act, 2013.

b) General reserve
General reserve represents amounts transferred from profit for the year and from Share options outstanding reserve on exercise / expiry of employee share options. It is a free reserve as per section 2 (43) of the Companies Act, 2013.

c) Share options outstanding reserve
Share options outstanding reserve represents the cumulative expense recognized for equity-settled transactions at each reporting date until the employee share options are exercised / expired upon which such amount is transferred to General reserve.

d) Gain on bargain purchase
The excess of the Group's portion of equity of the acquired company over its cost is treated as gain on bargain purchase in the financial statements.

e) Capital redemption reserve
Capital redemption reserve represents the nominal value of the shares bought back; and is created and utilised in accordance with Section 69 of the Companies Act, 2013.

f) Special Economic Zone re-investment reserve
The Special Economic Zone re-investment reserve has been created out of the profit in terms of the provisions of Section 10AA(1)(ii) of the Income tax Act, 1961. The reserve should be utilised by the Group for acquiring new plant and machinery for the purpose of its business in accordance with Section 10AA(2) of the Income tax Act, 1961.

g) Cash flow hedge reserve
The cash flow hedge reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of hedging instruments entered into towards highly probable transactions. Such gains or losses are subsequently recognised in the statement of profit and loss in the period in which the said transaction occurs / hedging instruments are cancelled.

h) Foreign currency translation reserve
The foreign exchange differences arising from the translation of financial statements of foreign operations with functional currency other than Indian rupees is recognised in other comprehensive income and is presented under equity in the foreign currency translation reserve. The amount is transferred to retained earnings upon disposal of investment in foreign operation.

Notes forming part of Condensed Interim Consolidated Financial Statements

1. Nature of operations

Persistent Systems Limited (the “Parent Company” or “PSL”) is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The shares of the Company are listed on Bombay Stock Exchange and National Stock Exchange. The Company is a global Company specializing in software products, services and technology innovation. The Company offers complete product life cycle services.

Persistent Systems, Inc. (PSI) based in the USA, a wholly owned subsidiary of PSL, is engaged in software product, services and technology innovation.

Klisma e-Services Private Limited is engaged in the business of internet, telecommunications, mobile technology and other media enabling electronic commerce. The Company is under liquidation.

2. Basis of preparation

The condensed interim consolidated financial statements of the Group have been prepared on an accrual basis and under the historical cost convention except for certain financial instruments, equity settled employee stock options and initial recognition of assets acquired under business combinations which have been measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange of goods and services. The accounting policies are consistently applied by the Group except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Statement of compliance:

These condensed interim consolidated financial statements have been prepared in accordance with Ind AS 34, Interim Financial Reporting, as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (the “Act”).

3. Principles of consolidation

The condensed interim consolidated financial statements of the Parent Company and its subsidiaries (“the Group”) for the nine months ended December 31, 2020 are prepared in accordance with generally accepted accounting principles applicable in India, and the Indian Accounting Standard, 110 (Ind AS 110) on ‘Consolidated Financial Statements’, notified by Companies (Accounting Standards) Rules, 2015, (“Indian Accounting Standards”) by and to the extent possible in the same format as that adopted by the Parent Company for its separate financial statements.

The Parent Company consolidates entities which it owns or controls. The condensed interim consolidated financial statements comprise the condensed interim financial statements of the Company and its subsidiaries as disclosed below. Control exists when the Parent Company has power over the entity, is exposed or has rights to variable returns from its involvement with the entity; and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The condensed interim consolidated financial statements of the Parent Company and its subsidiary companies have been combined on line by line basis by adding together the book values of like items of assets and liabilities, income and expenses after eliminating intra group balances and intra group transactions except where cost cannot be recovered. The unrealized profits or losses resulting from the intra group transactions and balances have been eliminated.

The condensed interim consolidated financial statements include the share of profit / loss of associate companies, which are accounted for under the ‘Equity method’. The share of profit / loss of the associate company has been adjusted to the cost of investment in the associate, as per the ‘Equity method’. An associate is an enterprise in which the investor has significant influence and which is neither a subsidiary nor a joint venture.

The excess of the cost to the Company of its investment in a subsidiary and the Company’s portion of equity of subsidiary on the date at which investment in the subsidiary is made, is described as goodwill and recognized separately as an asset in the condensed interim consolidated financial statements. The excess of the Company’s portion of equity of the acquired Company over its cost is treated as gain on bargain purchase in the condensed interim consolidated financial statements. Goodwill arising on consolidation is not amortized. It is tested for impairment on a periodic basis and written off if found impaired.

The condensed interim consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and necessary adjustments required for deviations, if any, are made in the condensed interim consolidated financial statements. The condensed interim consolidated financial statements are presented in the same manner as the Parent Company’s separate condensed interim financial statements.

(This space is intentionally left blank)

The subsidiary and associate companies considered in condensed interim consolidated financial statements are as follows:

Name of the subsidiary/ associate	Ownership Percentage as at			Country of incorporation

4. Summary of significant accounting policies

(a) Use of estimates

The preparation of the condensed interim consolidated financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the end of period / year. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Estimation of uncertainties relating to the global health pandemic, COVID-19:

The Group has evaluated likely impact of COVID - 19 on the overall business of the Group. The Group as at the date of the approval of these condensed interim consolidated financial statements, has used various available sources of information to analyse the carrying amount of its financial assets and exposures. The impact of COVID - 19 on the Group's condensed interim consolidated financial statements may differ from the estimate as on the date of the approval of the condensed interim consolidated financial statements.

Expected credit loss:

The Group has considered the current and anticipated future economic conditions relating to the industries the Group deals with and the countries where it operates. In calculating expected credit loss, the Group has also considered related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic, COVID -19 using the forward looking approach prescribed by Ind AS 109.

Impact on hedged and unhedged foreign currency exposure:

Based on its assessment, the Group believes that the probability of occurrence of its forecasted transaction are not likely to be impacted by COVID - 19. Hence, the Group continues to believe that there is no foreseeable impact the effectiveness of its cash flow hedges due to this global pandemic.

Carrying value of financial instruments:

Investments in mutual funds are classified as "Level 1" having fair value marked to an active market which factors in the uncertainties arising out of COVID – 19. These financial assets are mainly investments in liquid securities and no material permanent decline in their carrying value are expected.

Impact on revenue:

The Group continues to re-evaluate the probable revenues from customers in various verticals to assess any possible drops in revenue from any of these verticals due to the economic stress caused by COVID - 19. Accordingly, it is of the opinion that the customers could re-prioritise their discretionary spend in immediate future to conserve resources.

The impact assessment of COVID - 19 is a continuing process given the uncertainties associated with its nature and duration. The Group has considered the same to the extent known currently and has taken steps to measure the cost budgets required to complete its performance obligations in respect of fixed price contracts and incorporated the impact of likely delays and costs in meeting its obligations.

Critical accounting estimates

i. Revenue recognition

The Group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Group to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Further, the Group uses significant judgement while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

In respect of the contracts where the transaction price is payable as revenue share at pre-defined percentage of customer revenue and bearing in mind, the time gap between the close of the accounting period and availability of the revenue report from the customer, the Group is required to use its judgement to ascertain the income from royalty on the basis of historical trends of customer revenue.

ii. Income taxes

The Group's two major tax jurisdictions are India and the United States, though the Group also files tax returns in other overseas jurisdictions. Significant judgements are involved in determining the provision for income taxes.

iii. Intangible assets and contingent consideration in business combinations

Business combinations are accounted for using Ind AS 103, Business Combinations. Ind AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

iv. Estimates related to useful life of property, plant and equipment and intangible assets

Property, Plant and Equipment represent a significant proportion of the asset base of the Group. The charge in respect of depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed periodically. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

v. Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefiting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes. Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments

vi. Provisions

Provisions are determined based on the best estimate of the amount required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates of the amount required.

vii. Internally generated Intangible assets

During the period / year, the management continued to assess the recoverability of the Group's internally generated intangible assets including those under development. Based on the current revenue generated from these lines of business, expected future revenue and the basis of amortization followed, the management considers the carrying value of these intangible assets as recoverable

viii. Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Group operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Group has concluded that no changes are required to lease periods relating to the existing lease contracts.

(b) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price and directly attributable costs of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Capital work-in-progress includes cost of Property, Plant and Equipment that are not ready to be put to use.

Subsequent expenditure related to an item of Property, Plant and Equipment is added to its original cost only if it is probable that future economic benefits associated with the item will flow to the Group. All other expenses on existing Property, Plant and Equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from disposal of Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

(c) Intangible assets

Intangible assets including software licenses of enduring nature and contractual rights acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use.

Gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

Research and development cost

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Group can demonstrate:
- technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the asset;
- its ability to use or sell the asset;
- how the asset will generate probable future economic benefits;
- the availability of adequate resources to complete the development and to use or sell the asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during development.

Such development expenditure, until capitalization, is reflected as intangible assets under development.

Following the initial recognition, internally generated intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Amortization of internally generated intangible asset begins when the development is complete and the asset is available for use.

(d) Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the

- Fair values of the assets transferred;
- Liabilities incurred to the former owners of the acquired business;
- Equity interests issued by the Group; and
- Fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest’s proportionate share of the acquired entity’s net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:
- Consideration transferred;
- Amount of any non-controlling interest in the acquired entity, and
- Acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase is recognized directly in equity as capital reserve.

(e) Goodwill/ Gain on bargain purchase

Goodwill represents the cost of business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognized in the other comprehensive income as gain on bargain purchase. Goodwill is measured at cost less accumulated impairment losses.

(f) Depreciation and amortization

Depreciation on Property, Plant and Equipment is provided using the Straight Line Method (‘SLM’) over the useful lives of the assets estimated by the management.

The management estimates the useful lives for the Property, Plant and Equipment as follows:

Assets	Useful lives
Buildings*	25 years
Computers	3 years
Computers - Servers and networks*	3 years
Office equipments	5 years
Plant and equipment*	5 years
Plant and equipment (Windmill)*	20 years
Plant and equipment (Solar Energy System)*	10 years
Furniture and fixtures*	5 years
Vehicles*	5 years

*For these classes of assets, based on internal assessment and independent technical evaluation carried out by external valuers the management believes that the useful lives as given above best represent the period over which the management expects to use these assets. Hence the useful lives of these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Individual assets whose cost does not exceed ₹ 5,000 are fully depreciated in the period / year of acquisition.

Leasehold improvements are amortized over the period of lease or useful life, whichever is lower.

Intangible assets are amortized on a straight-line basis over their estimated useful lives ranging from 3 to 6 years from the day the asset is made available for use.

(g) Financial instruments

i) Financial assets

Initial recognition and measurement

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to the fair value of the financial assets on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in the statement of profit and loss.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified as:

- **Financial assets at amortized cost**

  Financial assets that are held within a business model whose objective is to hold assets for collecting contractual cash flows and whose contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are subsequently measured at amortized cost using the effective interest rate method. The change in measurements are recognized as finance income in the statement of profit and loss.

- **Financial assets at fair value through other comprehensive income (FVTOCI)**

  Financial assets that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets and the assets' contractual cash flows represent solely payments of principal and interest on the principal amount outstanding are subsequently measured at fair value. Fair value movements are recognized in other comprehensive income.

- **Financial assets at fair value through profit or loss (FVTPL)**

  Any financial asset which does not meet the criteria for categorization as financial assets at amortized cost or as FVTOCI, is classified as financial asset at FVTPL. Financial assets except derivative contracts included within the FVTPL category are subsequently measured at fair value with all changes recognized in the statement of profit and loss.

- **Forward exchange contracts not intended for trading or speculation purposes, classified as derivative financial instruments**

  As per the accounting principles laid down in Ind AS 109 – "Financial Instruments" relating to cash flow hedges, derivative financial instruments which qualify for cash flow hedge accounting are fair valued at balance sheet date and the effective portion of the resultant loss / (gain) is debited / (credited) to the hedge reserve under other comprehensive income and the ineffective portion is recognized to the statement of profit and loss. Derivative financial instruments are carried as forward contract receivable when the fair value is positive and as forward contract payable when the fair value is negative.

  Changes in the fair value of derivative instruments that do not qualify for hedge accounting are recognized in the statement of profit and loss as they arise.

  Hedge accounting is discontinued when the hedging instrument expires or is sold, or terminated, or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss on the hedging instrument recognized under other comprehensive income is transferred to the statement of profit and loss when the forecasted transaction occurs or affects the statement of profit and loss or when a hedged transaction is no longer expected to occur.

Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income, and accumulated in equity, if any is recognised in the statement of profit and loss.

ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the issue of financial liabilities (other than financial liabilities at fair value through profit or loss) are deducted from the fair value of the financial liabilities on initial recognition. Transaction costs directly attributable to the issue of financial liabilities at fair value through profit or loss are recognised immediately in the statement of profit and loss.

Subsequent measurement

For the purpose of subsequent measurement, financial liabilities are classified as:

- **Financial liabilities at amortized cost**

  Financial liabilities such as loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. The change in measurements are recognized as finance costs in the statement of profit and loss.

- **Financial liabilities at fair value through profit or loss (FVTPL)**

  Financial liabilities include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through profit or loss if the recognition criteria as per Ind AS 109 are satisfied. Gains or losses on liabilities held for trading are recognized in statement of profit and loss. Fair value gains or losses on liabilities designated as FVTPL attributable to changes in own credit risk are recognized in other comprehensive income. All other changes in fair value of liabilities designated as FVTPL are recognized in the statement of profit and loss. The Group has not designated any financial liability as FVTPL.

Derecognition

The Group derecognizes financial liabilities when the Group’s obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in the statement of profit and loss.

(h) Impairment

i) Financial assets

The Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortized cost and financial assets that are debts instruments and are measured at fair value through other comprehensive income (FVTOCI). ECL is the difference between contractual cash flows that are due and the cash flows that the Group expects to receive, discounted at the original effective interest rate.

For trade receivables, the Group recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. For other financial assets, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

ii) Non-financial assets

The carrying amounts of Property, Plant and Equipment and Goodwill are reviewed at each balance sheet date or whenever there is any indication of impairment based on internal/external factors. If any indications exist, the Group estimates the asset’s recoverable amount.

In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. The recoverable amount is the greater of the asset's fair value and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

An impairment loss is recognised in the statement of profit and loss.

Recoverable amount of intangible assets under development that is not yet available for use is estimated at least at each financial period / year end even if there is no indication that the asset is impaired.

(i) Borrowing costs

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or development of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period / year they occur.

(j) Leases

The Group's lease asset classes primarily consist of leases for land and office premises. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:
(i) the contract involves the use of an identified asset
(ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
(iii) the Group has the right to direct the use of the asset

Where the Group is a lessee

The Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located.

The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of Property, Plant and Equipment.

Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.
The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate.

The lease payments shall include fixed payments, variable lease payments based on an index or rate, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or statement of profit and loss if the right-of-use asset is already reduced to zero.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease expenses associated with these leases are recognized in the statement of profit and loss on a straight line basis.

Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income over the lease term.

(k) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts and volume rebates allowed by the Group. Revenue is recognized to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

(i) Income from sale of software services and products

The Group derives revenues primarily from IT services comprising of software development and related services and from the licensing of software products.
Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration expected to receive in exchange for those products or services.
Arrangements with customers for software related services are either on a time-and-material or a fixed-price basis.

Revenue on time-and-material contracts are recognized as and when the related services are performed. Revenue from fixed-price contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period.
.
When support services are provided in conjunction with the licensing arrangement and the license and the support services have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. Maintenance revenue is recognized proportionately over the period in which the services are rendered.

Revenue from revenue share is recognized in accordance with the terms of the relevant agreements.

The Group accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the proportionate allocation of the discounts amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount. Also, when the level of discount varies with increases in levels of revenue transactions, the Group recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Group recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Unbilled revenue represents revenue recognized in relation to work done until the balance sheet date for which billing has not taken place.

Unearned revenue represents the billing in respect of contracts for which the revenue is not recognized.

The Group collects Goods and Services Tax, on behalf of the government and, therefore, these are not economic benefits flowing to the Group. Hence, they are excluded from revenue.

(ii) Interest

Interest income is recognized on a time proportion basis taking into account the carrying amount and the effective interest rate. Interest income is included under the head 'Other income' in the statement of profit and loss.

(iii) Dividend

Dividend income is recognized when the Group's right to receive dividend is established. Dividend income is included under the head 'Other income' in the statement of profit and loss.

(l) Government grants

Government grants are recognized at fair value when there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received. Grants related to purchase of assets are treated as deferred income and allocated to income statement over the useful lives of the related assets while grants related to expenses are deducted in reporting the related expenses in the income statement.

(m) Foreign currency translation

Foreign currency transactions and balances

Initial recognition

Foreign currency transactions are recorded in the respective functional currencies of the entities in the Group, by applying to the foreign currency amount the exchange rate between the functional currency of each individual entity and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates at the date when the values were determined.

Exchange differences

Exchange differences arising on conversion / settlement of foreign currency monetary items and on foreign currency liabilities relating to Property, Plant and Equipment acquisition are recognized as income or expenses in the period / year in which they arise.

Translation of foreign operations

The Group presents the condensed interim consolidated financial statements in INR which is the functional currency of the Parent Company.

The assets and liabilities of a foreign operation are translated into the reporting currency (INR) at the exchange rate prevailing at the reporting date. Their statement of profit and loss are translated at exchange rates prevailing at the dates of transactions or weighted average rates, where such rates approximate the exchange rate at the date of transaction. The exchange differences arising on translation are accumulated in the foreign currency translation reserve under other comprehensive income. On disposal of a foreign operation, the accumulated foreign currency translation reserve relating to that foreign operation is recognized in the statement of profit and loss.

(n) Retirement and other employee benefits

(i) Provident fund

Provident fund is a defined contribution plan covering eligible employees. The Parent Company and the eligible employees make a monthly contribution to the provident fund maintained by the Regional Provident Fund Commissioner equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contributions to the provident fund are charged to the statement of profit and loss for the period / year when the contributions are due. The Parent Company has no obligation, other than the contribution payable to the provident fund.

(ii) Gratuity

Gratuity is a defined benefit obligation plan operated by Persistent Systems Limited and Persistent Systems Lanka (Private) Limited for their employees covered under Group's Gratuity Scheme. The cost of providing benefit under gratuity plan is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date and are charged to the statement of profit and loss, except for the remeasurements, comprising of actuarial gains and losses which are recognized in full in the statement of other comprehensive income in the reporting period in which they occur. Remeasurements are not reclassified to the statement of profit and loss subsequently.

(iii) Superannuation

Superannuation is a defined contribution plan covering eligible employees of the Parent Company. The contribution to the superannuation fund managed by the insurer is equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contribution to this scheme is charged to the statement of profit and loss on an accrual basis. There are no other contributions payable other than contribution payable to the respective fund.

(iv) Leave encashment

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Remeasurements, comprising of actuarial gains and losses are recognized in full in the statement of profit and loss. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

The Group presents the entire leave encashment liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement beyond twelve months after the reporting date.

(v) Long service awards

Long service awards are other long term benefits to all eligible employees, as per Group's policy. The cost of providing benefit under long service awards scheme is determined on the basis of actuarial valuation using the projected unit credit method at the reporting date. Remeasurements, comprising of actuarial gains and losses are recognized in full in the statement of profit and loss.

(o) Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Group operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized directly in equity is recognized in equity and not in statement of profit and loss.

Deferred income taxes reflect the impact of temporary differences between tax base of assets and liabilities and their carrying amounts. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except deferred tax liability arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction. Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses, except deferred tax assets arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, affects neither accounting nor taxable profit/ loss at the time of transaction.

In the situations where the Group is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognized in the period / year in which the temporary differences originate.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available against which such deferred tax assets can be realized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognized outside the statement of profit and loss is recognized in co-relation to the underlying transaction either in other comprehensive income or directly in equity.

Minimum alternate tax (MAT) paid in a period / year is charged to the statement of profit and loss as current tax. MAT credit available is recognized as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the period, i.e., the period for which MAT credit is allowed to be carried forward. In the period / year in which the Group recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

(p) Segment reporting

(i) Identification of segment

The Group's operations predominantly relate to providing software products, services and technology innovation covering full life cycle of product to its customers.

The components of the Group that engage in business activities from which they earn revenue and incur expenses, whose operating results are regularly reviewed by the Group's Chief Operating Decision Maker are identified as operating segments.

(ii) Allocation of income and direct expenses

Income and direct expenses allocable to segments are classified based on items that are individually identifiable to that segment such as salaries, project related travel expenses etc. The remainder is considered as un-allocable expense and is charged against the total income.

(iii) Unallocated items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Segregation of assets, liabilities, depreciation and amortization and other non-cash expenses into various reportable segments have not been presented except for trade receivables as these items are used interchangeably between segments and the Group is of the view that it is not practical to reasonably allocate these items to individual segments and an ad-hoc allocation will not be meaningful.

(iv) Inter-segment transfers

There are no inter-segments transactions.

(v) Segment accounting policies

The Group prepares its segment information in conformity with accounting policies adopted for preparing and presenting the condensed interim consolidated financial statements of the Group as a whole.

(This space is intentionally left blank)

(q) Earnings per share (EPS)

Basic earnings per share are calculated by dividing the net profit for the period / year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period / year. The weighted average number of equity shares outstanding during the reporting period / year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any occurred during the reporting period/ year, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period / year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period / year, are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potential dilutive equity shares are adjusted retrospectively for all periods presented for any bonus shares issues including for changes effected prior to the approval of the condensed interim consolidated financial statements by the Board of Directors.

(r) Provisions

A provision is recognized when the Group has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate of the amount required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(s) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.

(t) Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprises of cash at bank, cash in hand and short term deposits with an original maturity period of three months or less.

(u) Employee stock compensation expenses

Employees of the Group receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments granted (equity-settled transactions).

In accordance with Ind AS 102 – “Share Based Payments”, the cost of equity-settled transactions is determined by the fair value of the options at the date of the grant and recognized as employee compensation cost over the vesting period. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group’s best estimate of the number of equity instruments that will ultimately vest.

The expense or credit recognized in the statement of profit and loss for a period / year represents the movement in cumulative expense recognized as at the beginning and end of that period / year and is recognized in employee benefits expense. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

The employee stock option expenses in respect of the employees of the subsidiaries are charged to the respective subsidiary.

5. Share capital

	As at December 31, 2020 In ₹ Million	As at December 31, 2019 In ₹ Million	As at March 31, 2020 In ₹ Million
Authorized shares (No. in million)			
200 (Corresponding period/ Previous year: 200) equity shares of ₹ 10 each	2,000.00	2,000.00	2,000.00
	2,000.00	**2,000.00**	**2,000.00**
Issued, subscribed and fully paid-up shares (No. in million)			
76.43 (Corresponding period/ Previous year: 76.43 equity shares of ₹ 10 each) equity shares of ₹ 10 each	764.25	764.25	764.25
Issued, subscribed and fully paid-up share capital	**764.25**	**764.25**	**764.25**

a) Reconciliation of the shares outstanding at the beginning and at the end of the period/ year

The reconciliation of the number of shares outstanding and the amount of share capital is set out below:

(In Million)

	As at December 31, 2020		As at December 31, 2019		As at March 31, 2020	
	No. of shares	Amount	No. of shares	Amount	No. of shares	Amount
Number of shares at beginning of the period / year	76.43	764.25	79.12	791.19	79.12	791.19
Less: Shares bought back	-	-	2.69	26.94	2.69	26.94
Number of shares at the end of the period / year	**76.43**	**764.25**	**76.43**	**764.25**	**76.43**	**764.25**

b) Terms / rights attached to equity shares

The Group has only one class of equity shares having a par value of ₹ 10 per share. Each holder of equity shares is entitled to one vote per share. The Group declares and pays dividends in Indian rupees.

The Parent Company declares and pays dividends in Indian rupees. The Finance Act, 2020 in India has repealed Dividend Distribution Tax (DDT). The Companies are now required to pay/ distribute dividend after deducting applicable taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates as per Finance Act, 2020.

In the event of liquidation of the Parent Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

c) Aggregate number of bonus shares issued, shares issued for consideration other than cash and shares bought back during the period of five years immediately preceding the reporting date

(Nos.in Million)

	For the period of five years ended December 31, 2020 No in Million	For the period of five years ended December 31, 2019 No in Million	For the period of five years ended March 31, 2020 No in Million
Equity shares allotted on March 12, 2015 as fully paid bonus shares by capitalization of securities premium ₹ 400.00 million	-	40.00	40.00
Equity shares bought back	3.575	3.575	3.575

d) Buyback of Equity Shares of the Parent Company:

The Board of Directors, at its meeting in January 2019, had approved the buyback of the Parent Company's fully paid-up equity shares of the face value of ₹ 10 each from its shareholders/beneficial owners excluding promoters, promoter group and persons who are in control of the Parent Company, via the "open market" route through the stock exchanges, for a total amount not exceeding ₹ 2,250 million ("Maximum Buyback Size"), and at a price not exceeding ₹ 750 per Equity Share ("Maximum Buyback Price").
The buyback was offered to all eligible equity shareholders of the Parent Company (other than the Promoters, the Promoter Group and Persons in Control of the Group) under the open market route through the stock exchanges. The buyback of equity shares through the stock exchange commenced on February 8, 2019 and was completed on June 27, 2019. During this buyback period the Parent Company had purchased and extinguished a total of 3,575,000 equity shares from the stock exchange at an average buy back price of ₹628.93/- per equity share comprising 4.47% of the pre buyback paid-up equity share capital of the Parent Company. The buyback resulted in a cash outflow of ₹2,248.42 million (excluding transaction costs). The Parent Company funded the buyback from utilization of its securities premium and free reserves. The total number of equity shares outstanding as on date post buyback stands at 76,425,000.

e) Details of shareholders holding more than 5% shares in the Group

Name of the shareholder*	As at December 31, 2020		As at December 31, 2019		As at March 31, 2020	
	No. in million	% Holding	No. in million	% Holding	No. in million	% Holding
Dr. Anand Deshpande jointly with Mrs. Sonali Anand Deshpande	22.96	30.04	22.95	30.04	22.95	30.04
Schemes of HDFC Mutual Fund	6.03	7.89	5.65	7.40	6.53	8.54

* The shareholding information is based on legal ownership of shares and has been extracted from the records of the Group including register of shareholders / members.

Forward contracts receivables	Fair value	290.05	290.05	45.26	45.26	-	-	Level 2
Total		**28,027.47**	**28,157.93**	**21,668.32**	**21,655.68**	**22,921.47**	**22,918.07**	
Liabilities:								
Borrowings (including accrued interest)	Amortised cost	50.31	50.31	13.43	13.43	51.25	51.25	
Trade payables	Amortised cost	2,276.67	2,276.67	1,822.86	1,822.86	2,247.09	2,247.09	
Lease liabilities	Amortised cost	1,006.50	1,006.50	714.01	714.01	662.42	662.42	
Other financial liabilities (excluding borrowings)	Amortised cost	162.98	162.98	87.14	87.14	469.42	469.42	
Forward contracts payable	Fair value	-	-	-	-	387.89	387.89	Level 2
Total		**3,496.46**	**3,496.46**	**2,637.44**	**2,637.44**	**3,818.07**	**3,818.07**	

* Fair value includes interest accrued.

Fair value hierarchy:

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

(This space is intentionally left blank)

32. Segment information

Operating segments are components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision makers, in deciding how to allocate resources and assessing performance. The Group's chief operating decision makers are the Chief Executive Officer and the Chairman & Managing Director.

Considering the focus on industry verticals, the Group has decided to reorganize its operating segments from April 1, 2020. The figures for the corresponding periods / year have been appropriately reclassified in line with the current period's classification.

	As at December 31, 2019	-	-	-	29,209.62
	As at March 31, 2020	-	-	-	30,921.69

Segregation of assets (other than trade receivables), liabilities, depreciation and amortization and other non-cash expenses into various reportable segments have not been presented as the assets are used interchangeably between segments and the Group is of the view that it is not practical to reasonably allocate the other assets, liabilities and other non-cash expenses to individual segments and an ad-hoc allocation will not be meaningful.

Geographical Information
The following table shows the distribution of the Group's consolidated sales by geographical market regardless of from where the services were rendered

(In ₹ Million)

Particulars		India	North America	Rest of the World	Total

33. Contingent liabilities

Persistent Systems Limited ("the Parent Company") had received a show cause notice from the Commissioner of Service Tax on December 19, 2016 for non-payment of service tax of ₹ 452.15 million under import of services on reverse charge basis, excluding interest and penalty if applicable. The issue relates to the professional and technical services rendered by overseas subsidiaries on behalf of the Parent Company to its overseas customers for the period 2011-12 to 2014-15.

Post representations made by the Parent Company, the Learned Principal Commissioner of Service Tax, Pune, adjudicated the aforesaid show-cause notice and issued an order on May 29, 2017, reducing the demand to ₹ 173.78 million based on the period of limitation and as a result of that, the said demand now covers financial year 2014-15. The Parent Company has filed an appeal against the order passed by Learned Principal Commissioner of Service Tax, Pune with the Hon'ble Central Excise and Service Tax Appellate Tribunal (CESTAT) on September 23, 2017.

The Group, based on independent legal opinion obtained in respect of issues related to this matter, believes that the liability is not likely to arise and therefore, no provision is considered necessary in the condensed interim consolidated financial statements. If the appeal filed as mentioned above results in a demand, there will be no impact on the profitability as the Group will be eligible to claim credit/refund for the amount paid.

The GST department filed an appeal on October 11, 2017 with appellate authorities against the Order passed by Learned Principal Commissioner of Service Tax, Pune. Though the GST department acknowledged the ground of revenue neutrality, the said appeal mainly questions non-application of extended period of limitation. The Parent Company filed reply to this appeal on December 18, 2017.

Considering the view of the Service Tax Authorities, based on legal advice and due prudence, the Company deposited, an amount of ₹ 647.36 million towards service tax in respect of the above matter, for the period from April 01, 2014 to June 30, 2017, under protest. This balance, post adjustment of service tax liability of ₹17.76 million for the month of June 2017 (i.e. net amount of ₹ 629.60 million) was considered as transitional credit under GST Regime and recorded accordingly as GST receivable. The disputed demand currently stands at ₹ 173.78 million towards which ₹ 165.58 million was paid under protest and forms part of the aforementioned GST receivable balance.

As on December 31, 2020, the pending litigations in respect of direct taxes amount to ₹ 201.49 million and in respect of indirect taxes amount to ₹ 25.94 million (excluding the show cause notice received from Commissioner of Service Tax on May 29, 2017 of ₹ 173.78 million under import of services on reverse charge basis as mentioned above). Based on the advice obtained and judgments in favour of the Parent Company at the first appellate authority in the earlier years, management does not expect any outflow in respect of these litigations.

In respect of export incentives pertaining to previous periods amounting to ₹ 255.52 million, which have been refunded under protest with interest of Rs 41.03 million, the Parent Company filed an application before the relevant authorities. Further, the Parent Company has also submitted a follow up communication, in this regard, with DGFT. Also, the Parent Company had submitted representation with the industry association (NASSCOM) to ensure continued applicability of the said incentives to the eligible information technology companies. We understand from NASSCOM that they have also taken up the matter with concerned authorities. Additionally, accrued export incentives amounting to ₹ 113.49 million pertaining to earlier periods is subject to realization in the context of Parent Company's review application pending before the relevant authorities. The Parent Company is awaiting an opportunity of being heard on its application pending before DGFT and believes that the export incentives will be finally granted to the Parent Company. Accordingly, no provision has been considered in the financial statements in this regard.

In respect of the show cause notice dated 30th September 2020, received by the Parent Company on 9th October, 2020, on this matter from the Directorate of Revenue Intelligence (DRI), in which the authorities have raised certain additional matters with applicable penalties, the Parent Company, based on initial consultations with subject matter specialists/experts believes that its position will likely be upheld on ultimate resolution and hence, no provision has been considered in the financial statements in this regard.

Persistent Systems Limited has given a performance guarantee up to $ 10 million to HSBC Bank USA in respect of payment obligations under the Receivables Purchase agreement entered into by Persistent Systems, Inc. with HSBC Bank, USA (Corresponding period / Previous year: $10 million). Persistent Systems Limited has also given performance guarantee up to $ 5 million to Citibank USA (Corresponding period / Previous year: $ 5 million) in respect of working capital facilities for Persistent Systems, Inc. and $ 0.17 million to Sun Life Assurance Company of Canada for timely payment of rent instalments and damages, in respect of office leased to Persistent Systems, Inc.

Persistent Systems, Inc. has given commercial guarantee of 30 million Euros (Corresponding period / Previous year: 30 Million euros) to Tech Data Europe GmbH on behalf of Persistent Systems France S.A.S. For the said guarantee, Persistent Systems, Inc. has charged guarantee fees of 0.25% of the guarantee amount.

Persistent Systems, Inc. has also given a performance guarantee of up to $ 3 million (Corresponding period / Previous year: $ 3 million) to United States Cellular Corporation (USCC) Services & its affiliates towards trade payable of Aepona Limited.

34. The Parent Company has deposits of ₹ 430 million with the financial institutions viz. Infrastructure Leasing & Financial Services Ltd. (IL&FS) and IL&FS Financial Services Ltd. (referred to as "IL&FS Group") as on the balance sheet date. These were due for maturity from January 2019 to June 2019. In view of the uncertainty prevailing with respect to recovery of outstanding balances from IL&FS Group, Management of the Parent Company has fully provided for these deposits along with interest accrued thereon till the date the deposits had become doubtful of recovery. The Management is hopeful of recovery though with a time lag. The Parent Company continues to monitor developments in the matter and is committed to take steps including legal action that may be necessary to ensure full recovery of the said deposits.

35. Effective April 1, 2019, the Group has adopted Ind AS 116, Leases; and has recognized interest expense of ₹ 41.62 million (Corresponding period: ₹ 48.29 million / Previous year: ₹ 61.22 million).

36. The condensed interim consolidated financial statements are presented in ₹ million and decimal thereof except for per share information or as otherwise stated.

37. Business combination

i) Acquired contractual rights ("Actifio") :

On May 12, 2020, the Company has entered into an agreement with a customer wherein it has acquired a business division together with the skilled employees and has also entered into a service agreement with the same customer for a period of five years. The Company did not have/nor does it hold any equity interest in the aforementioned customer before or after the above transaction. The transaction has been considered as a 'Business combination' in accordance with IND AS 103, Business Combinations.

A. Consideration for the transaction

The following table summarizes the acquisition date fair value of major components of the agreed consideration:

Particulars	**Amount (in INR million)**
Cash	136.10
Employee benefit liabilities assumed	42.66
Total Consideration	**178.76**

B. Identifiable assets acquired and liabilities assumed

The acquisition of the said business is accounted for using the acquisition method of accounting. However, the Company did not perform a complete exercise of purchase price allocation pending fair valuation of assets and liabilities assumed as at the reporting date. As a result, the Company has exercised the option of using the exemption available under Ind AS 103, which provides the Company a period of twelve months from the acquisition date for completing the accounting of purchase price allocation. Accordingly, the amount of INR 178.76 million has currently been considered as 'Contractual rights for service contracts' classified under Acquired contractual rights disclosed in Note 5.2 on provisional basis.

C. Developments based on subsequent events

In December 2020, the Customer has entered into a definitive contract to sell the aforesaid business, which resulted in re-evaluation of business already acquired by the Company. The Company has entered into a revised agreement with the customer to restructure terms and conditions or the original acquisition agreement effective from January 1, 2021 or the notification by Actifio to Persistent of the closing of the acquisition of Actifio by a Third Party, whichever is later. The revised agreement will result in loss of control for the Company over the business acquired earlier. Such loss of control over the acquired business is effective January 01, 2021 or the notification by Actifio to Persistent of the closing of the acquisition of Actifio by a Third Party, whichever is later and as a result these financial statements do not include any adjustments arising from such revised agreement.

ii) Entities acquisition ("CAPIOT Group") :

The Group acquired 100% share capital of CAPIOT Software Private Limited, a company based in India, with effect from October 29, 2020 and 100% share capital of CAPIOT Software Inc, a company based in USA, along with its wholly owned subsidiaries CAPIOT Software Pty Limited, a company based in Australia and CAPIOT Software Pte Limited, a company based in Singapore, with effect from November 7, 2020. The acquisition of the said business is accounted for using the acquisition method of accounting. Further, the Company is in process to complete exercise of purchase price allocation pending fair valuation of assets and liabilities assumed as at the reporting date. As a result, the Company has exercised the option of using the exemption available under Ind AS 103, which provides the Company a period of twelve months from the acquisition date for completing the accounting of purchase price allocation.

a) The amount of consideration paid/payable is ₹ 448.47 million.
The fair value of assets acquired and liabilities assumed as on the date of acquisition are as follows:

(In ₹ Million)

Particulars	CAPIOT Software Private Limited	CAPIOT Software Inc.	Total
Current Assets			
Cash and & cash equivalents	20.00	10.90	30.90
Trade receivables	48.52	22.10	70.62
Other current assets	127.10	64.36	191.46
Non-current assets			
Property, Plant and Equipment	6.26	0.74	7.00
Deferred tax asset	0.11	-	0.11
Contractual rights	193.11	14.76	207.87
Intellectual Property Rights	5.34	-	5.34
Tradename	5.27	1.19	6.46
Non-compete rights	29.81	2.30	32.11
Current liabilities			
Trade and other payables	123.90	25.28	149.18
Borrowings	34.38	49.91	84.29
Net assets	**277.24**	**41.16**	**318.40**

b) Net cash outflow on acquisition of subsidiaries

Particulars	Amount in ₹ million
Consideration paid/ payable in cash	448.47
Less: cash and cash equivalent balances acquired	(30.90)
	417.57

c) Revenue of ₹ 68.68 million for the period ended December 31, 2020 is included in the financial statements. The profit included for the period ended December 31, 2020 is ₹ 1.34 million.

Had the business combination been effected on April 1, 2020, the revenue for the nine months ended December 31, 2020 for the Company from the continuing operations would have been ₹ 30,998.79 million and the net profit for the nine months ended December 31, 2020 would have been ₹ 3,117.88 million.

38. The code on Social security, 2020 relating to employee benefits has been approved by the Parliament and has also been published in Official Gazette of India. However, the date on which it comes into effect has not been notified and the rules are yet to be framed. The Company will complete its evaluation and will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules are published.

39. The condensed interim financial statements for the quarter and nine months December 31, 2019, included in the interim consolidated financial statements as comparative financial information, were subjected to review by Statutory auditors.

40. Corresponding period's / Previous year's figures have been regrouped where necessary to conform with the current period's classification.
