

Datasheet

Unified Endpoint Management

The only truly integrated and highly scalable platform that manages all endpoints through policy-driven desired state automation.

Overview

Unified Endpoint Management by Persistent is an industry-leading solution that enables a unified approach to managing a variety of endpoints — PCs, servers, smartphones, tablets, virtual environments, and more. Unified Endpoint Management policy-based desired state automation

makes it easy for your IT team to manage and secure the growing number of devices in your organization — and at the lowest cost of any enterprise tool on the market. The solution is trusted by over 400 customers, is deployed at thousands of locations across the globe, and manages over 10 million devices worldwide.

Key Features

Integrated Policy Engine

Single, integrated policy engine to manage all devices with consistency

OS and Mobile Platform Agnostic

Supports the widest range of endpoint platforms (OS and mobile)

Seamless Migration

Zero-touch operating system migration

Reporting and Insights

Robust reporting and insights without of the box and ad-hoc reports

Comprehensive Automation

Automated OS deployment and modules for managing entire stack for every device

Automatic Remediation

Automatic scanning and remediation of device state, and detailed status reports on device non-compliance

Supports the Widest Range of Endpoint Platforms

Window clients (XP and later)

Mac OS

Linux (RedHat, SuSE, Debian, Ubuntu, CentOS, Fedora)

Mobile platforms (iOS, Android, Windows Phone 8)

Virtual environments (thin clients, VDI environments, virtual machines, VMware ThinApp, Microsoft App-V)

One Tool to Rule Them All

Hybrid

Why Unified Endpoint Management?

- \ **Supports** the **widest range** of devices and operating systems
- \ **100%** automated, policy-driven desired state management
- \ **Lowest** administration **costs** of any tool amongst its peers
- \ Virtually unlimited **scalability** and **reliability** (current largest deployment manages over 400,000 endpoints)
- \ Entire **functionality** available in flexible cloud, hybrid, and on-premise deployment **options**

Managing Entire Stack for Every Device

Products

- \ Unified Endpoint Management Client Automation
- \ Persistent Server Management
- \ Persistent Mobile
- \ Persistent Security and Compliance
- \ Persistent Thin Clients
- \ Persistent Cloud

Modules

- \ Discovery & Inventory Management
- \ OS Management
- \ Patch Management
- \ Software Management
- \ Application Management
- \ Self Service
- \ Usage Management

Device Stack

- \ User Settings
- \ Optional Apps
- \ LOB Apps
- \ Mandatory Apps
- \ Operating System
- \ Bare-metal

Now also available in cloud-hosted and hybrid deployment model

Case Studies

A US Government Agency

with 400K endpoints that deploys terabytes of data a day was able to achieve a **99.99% success** rate of patch and application deployment with Unified Endpoint Management.

A \$50 billion global provider of mobile telecommunications

saw a 3-year benefit of \$14M — an **ROI of 625%** — after implementing Unified Endpoint Management. It also decreased user downtime by 64%, increased service quality from 70% to 90%, and reduced costs by reducing administrators from 65 to 5 by centralizing 30 different countries to a single Unified Endpoint Management platform.

A major global bank

with 100K endpoints was able to deploy 6,000 OSs in 8 hours with a **99.999% success** rate and no service disruptions using Unified Endpoint Management.

About Persistent

With over 15,500 employees located in 18 countries, Persistent Systems is a global services and solutions company delivering Digital Engineering and Enterprise Modernization. We combine deep technical expertise and industry experience to help our clients anticipate what's next and develop solutions that create unique competitive advantage. Persistent was named to the Forbes Asia Best Under a Billion 2021 list, representing consistent top-and bottom-line performance as well as growth.
