

# Modernization

## Legacy iPaaS to Boomi Migration

## What We Offer

Persistent developed a robust and scalable migration strategy for transitioning from your legacy middleware to the modern Boomi Enterprise platform, ensuring seamless integration and enhanced performance.

By leveraging these technologies built the integrations between enterprise applications, CRM, financial applications, and other operation-based systems, simplifying the integration process for your enterprise.

## Why move from Legacy Integration to Boomi

### Misaligned with Modern Needs

Originally designed as Enterprise Service Buses (ESBs), these platforms are often rebranded as API-first, which doesn't suit all integration scenarios.

### Technical Complexity

These platforms demand deep technical expertise, making them difficult to implement and operate without dedicated integration teams.

### Lack of Agility

Overall, these systems are increasingly incompatible with the agile, scalable, and inclusive demands of modern digital transformation.

### Outdated Architecture

Built for expert developers, the technology is aging and lacks modern features like scalability, fault tolerance, and high availability.

### Fragmented Automation

External automation tools are often required, raising concerns about platform coherence and future integration.

### DIY Burden

Legacy integration platforms often require customers to handle infrastructure design, hosting, and maintenance themselves.

# Why Boomi

## Unified Platform

Boomi offers a single solution for integration, API management, and data management.

## Secure API Management

Boomi Mashery ensures secure, full-lifecycle API management.

## Low-Code Efficiency

Its drag-and-drop, low-code interface accelerates development and reduces errors.

## Data Integrity

Intelligent data capture and integration prevent data loss during migrations.

## AI-Driven Automation

Boomi AI Studio enhances integration with intelligent agent design and orchestration.

## Scalable Architecture

Built to scale with your business, supporting complex enterprise needs.

## End-to-End Connectivity

Seamlessly connects cloud and on-premises systems, eliminating data silos.

## Real-Time Insights

Provides monitoring and analytics for proactive issue resolution.

## Faster Time to Market

Automates workflows and processes to boost agility and speed.

## Customer-Centric Engagement

Delivers the right data to the right users at the right time, on any device.

# Ignite your Boomi Integration Journey with Persistent

- **Expert-Led Assessment:** Persistent analyzes legacy systems to uncover optimization and modernization opportunities.
- **Strategic Roadmap:** Crafts a customized integration strategy aligned with business goals for a smooth Boomi transition.
- **Reusable Assets:** Utilizes reusable APIs and connectors to streamline migration and reduce development time.
- **Modern Architecture:** Builds scalable, maintainable integration frameworks tailored to enterprise needs.
- **Minimal Disruption:** Ensures a seamless migration with minimal impact on ongoing business operations.
- **Performance Gains:** Enhances system performance and workflow efficiency post-migration.
- **Cloud-Native Expertise:** Leverages Boomi's iPaaS capabilities for agile, cloud-first integration.
- **End-to-End Support:** Provides managed services for continuous optimization and DevOps integration.
- **Scalable Design:** Delivers resilient architectures that adapt to future business growth.
- **Trusted Execution:** Persistent's proven methodology ensures secure, compliant, and successful migrations.

## Success Story

Persistent successfully led a legacy-to-Boomi migration for a real estate enterprise, designing a robust and scalable iPaaS solution. The team conducted a detailed assessment of the legacy codebase and developed technical design documents to rebuild services with enhanced architecture on Boomi. Integrations were established across property management, CRM, finance, and operational systems, streamlining processes. Security features were implemented to ensure SOX compliance, boosting data protection and operational trust.

# Boomi Key Products

## Boomi AtomSphere

iPaaS for application and data integration.

## Boomi Flow

Workflow automation and low-code development.

## Boomi API Management

Secure API lifecycle management.

## Boomi B2B / EDI

Partner network integration.

## Boomi Master Data Hub

MDM for data consistency.

## Boomi Mashery

A comprehensive API management solution.

## About Boomi

Boomi is the pioneer of cloud-based integration Platforms as a Service (iPaaS), Boomi's platform enables businesses to discover, manage, and orchestrate data while connecting applications, processes, and people for better, faster outcomes. Boomi offers key products for integration and automation, including **Boomi AtomSphere** (iPaaS for application and data integration), **Boomi Flow** (workflow automation and low-code development), **Boomi Master Data Hub** (MDM for data consistency), **Boomi B2B/EDI** (partner network integration), and **Boomi API Management** (secure API lifecycle management).
