Independent Auditor's Report

To the Board of Directors of Persistent Systems Limited

Report on the Audit of the Standalone Condensed Interim Financial Statements

Opinion

We have audited the standalone condensed interim financial statements of Persistent Systems Limited ("the Company"), which comprise the standalone condensed interim balance sheet as at 30 September 2026, the standalone condensed interim statement of profit and loss (including other comprehensive income) for the quarter and year-to-date period then ended, standalone condensed interim statement of changes in equity and standalone condensed interim statement of cash flows for the year-to-date period then ended, and notes to the standalone condensed interim financial statements, including material accounting policies and other explanatory information, as required by Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting" and other accounting principles generally accepted in India [in which are included the condensed interim financial statements for the period ended on that date audited by the auditors of the Company's Employee Stock Option (ESOP) Trust ("the ESOP Trust")] (hereinafter referred to as "the standalone condensed interim financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of other auditor on condensed separate interim financial statements of the Trust as were audited by the other auditor, the aforesaid standalone condensed interim financial statements are prepared, in all material respects, in accordance with Ind AS 34 and other accounting principles generally accepted in India.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013 ("Act"). Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Condensed Interim Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone condensed interim financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us along with the consideration of report of the auditor referred to in paragraph (a) of the "Other Matter" section below, is sufficient and appropriate to provide a basis for our opinion on the standalone condensed interim financial statements.

Management's and Board of Directors'/ Board of Trustees' Responsibilities for the Standalone Condensed Interim Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these standalone condensed interim financial statements in accordance with Ind AS 34 prescribed under section 133 of the Act and other accounting principles generally accepted in India. The respective Management and Board of Directors of the company/Board of Trustees of the ESOP Trust are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of company/ESOP Trust and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the condensed standalone interim financial statements. which are free from material misstatement, whether due to fraud or error.

In preparing the standalone condensed interim financial statements, the respective Management and Board of Directors/Board of Trustees are responsible for assessing the ability of each company/trust to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors/Board of Trustees either intends to liquidate the company/ESOP Trust or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors/Board of Trustees are also responsible for overseeing the financial reporting process of each company/ESOP Trust.

Auditor's Responsibilities for the Audit of the Standalone Condensed Interim Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone condensed interim financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these condensed standalone interim financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the condensed standalone interim financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing opinion on the effectiveness of the entity's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.

Auditor's Responsibilities for the Audit of the Standalone Condensed Interim Financial Statements *(continued)*

- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in the preparation of condensed standalone interim financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the condensed standalone interim financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the condensed standalone interim financial statements, including the disclosures, and whether the condensed standalone interim financial statements represent the underlying transactions and events in a manner that is in accordance with Ind AS 34.

- Obtain sufficient appropriate audit evidence regarding the condensed interim financial statements of the Trust of the Company to express an opinion on the standalone condensed interim financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

(a) We did not audit the condensed interim financial statements of one ESOP Trust included in the standalone condensed interim financial statements of the Company whose condensed interim financial statements reflect total assets (before consolidation adjustments) of Rs. 3,830 million as at 30 September 2026, total revenue (before consolidation adjustments) of Rs. Nil and Rs. Nil for the quarter and year-to-date period ended on that date respectively, net cash inflows (before consolidation adjustments) amounting to Rs. 36 million for the year-to-date period then ended, as considered in the standalone condensed interim financial statements. The condensed interim financial statements of the ESOP trust have been audited by the other auditor whose report has been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of the trust, is based solely on the report of such other auditor.

Our opinion on the standalone condensed interim financial statements is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

In ₹ Million

Balance as at April 1, 2025	Changes in equity share capital during the six months period	Balance as at September 30, 2025
779.25	2.75	782.00

In ₹ Million

Balance as at April 1, 2025	Changes in equity share capital during the year	Balance as at March 31, 2026
779.25	9.50	788.75

(This space is intentionally left blank)

Nature and purpose of reserves

Securities premium is used to record the premium on issue of shares. The securities premium is utilised in accordance with the provisions of Section 52 of the Companies Act, 2013.

a) General reserve

The general reserve is a free reserve created by an appropriation from one component of equity (generally retained earnings) to another, not being an item of other comprehensive income ("OCI"). The same can be utilized in accordance with the provisions of the Companies Act, 2013.

b) Share options outstanding reserve

Share options outstanding reserve represents the cumulative expense recognised for equity-settled transactions at each reporting date until the employee share options are exercised / expired on which such amount is transferred to General reserve.

c) Capital redemption reserve

Capital redemption reserve represents the nominal value of the shares bought back and is created and utilised in accordance with section 69 of the Companies Act, 2013.

d) Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company which includes remeasurements of the defined benefit liabilities / asset.

e) Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

f) Effective portion of Cash flow hedge reserve

When a derivative is designated as cashflow hedging instrument the effective portion of changes in the fair value of derivative is recognised in other comprehensive income (OCI) and accumulated in cashflow hedge reserve. Cumulative gains or losses previously recognised in cashflow hedge reserve are recognised in the statement of profit and loss in the period in which such transaction occurs / hedging instruments are settled / cancelled.

g) PSPL ESOP Trust reserve and Treasury shares

The Company has created an Employee Stock Options Trust (ESOP Trust) for providing share-based payment to its employees. The Company uses ESOP Trust as a vehicle for distributing shares to employees. The ESOP Trust buys shares of the Company from the market, for giving shares to employees. The shares held by ESOP Trust are treated as treasury shares.

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in equity. Share options whenever exercised, would be satisfied with treasury shares.

(This space is intentionally left blank)

1 Company overview

Persistent Systems Limited ("the Company" or "PSL") is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956 ("the 1956 Act"). The Company has its registered office at Bhageerath, 402 Senapati Bapat Road, Pune, Maharashtra, India. The shares of PSL are listed on Bombay Stock Exchange and National Stock Exchange. PSL is a global company specializing in software products, services and technology innovation. The company offers complete product life cycle services.

The Board of Directors approved the standalone condensed interim financial statements for the period ended September 30,2026 and authorised for issue on October 15, 2026.

2 Basis of preparation

The Standalone condensed interim financial statements have been prepared in accordance with the provisions of the Companies Act, 2013 ("the Act") and Indian Accounting Standards (Ind AS) under the historical cost convention on accrual basis except for the following items, which are measured on an alternative basis on each reporting date -

Items	Basis of Measurement
Derivative financial instruments	Fair Value
Non-derivative financial instruments at FVTPL	Fair Value
Debt and equity securities at FVOCI	Fair Value
Contingent consideration assumed in a business combination	Fair Value
Net defined benefit (asset) / liability	Fair value of plan assets less the present value of the defined benefit obligation

These standalone condensed interim financial statements for the period ended September 30,2026 have been prepared in accordance with Indian Accounting Standard (Ind AS) 34, "Interim Financial Reporting", prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Companies Act, 2013. These standalone condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the Company's latest annual financial statements.

The Company had formulated an Employee Stock option Plan (ESOP) where the company granted an stock options to employees and the shares will be issued to employees at the time of exercising the options through PSPL ESOP Management Trust (the 'Trust'). As the Trust carried out activities on behalf of the Company, the Company consolidates the Trust in the standalone financial statements to reflect appropriate presentation of the activity of the Trust.

These financial statements have been prepared in accordance with " Ind AS 34 Interim Financial Reporting" for the quarter and six months period ended September 30, 2026, as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013".

3 Material accounting policy information

3.1 Use of estimates and judgements

The preparation of the standalone condensed interim financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed appropriately. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the annual standalone financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the annual standalone financial statements.

3.2 Critical accounting estimates & judgement

a) Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment.

Revenue from fixed price maintenance type contracts is recognised on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from other fixed-price contracts is recognised rateably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of a method to recognise such revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

When performance obligation is satisfied over the time, the Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Further, the Company uses significant judgement while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

In respect of the contracts where the transaction price is payable as revenue share at pre-defined percentage of customer revenue and bearing in mind, the time gap between the close of the accounting period and availability of the revenue report from the customer, the Company is required to use its judgement to ascertain the income from revenue share on the basis of historical trends of customer revenue.

The Company receives advance payments from customers for the sale of software products, services and technology innovation including complete product life cycle services after signing the contract and receipt of payment. There is a significant financing component for these contracts considering the length of time between the customers' payment and rendering of services as well as the prevailing interest rate in the market. As such, the transaction price for these contracts is discounted, using the interest rate implicit in the contract (i.e., the interest rate that discounts the cash selling price to the amount paid in advance). This rate is commensurate with the rate that would be reflected in a separate financing transaction between the Company and the customer at contract inception.

The Company applies the practical expedient for short-term advances received from customers. That is, the promised amount of consideration is not adjusted for the effects of a significant financing component if the period between the transfer of the promised services and the payment is one year or less.

b) Income taxes

The Company's primary tax jurisdiction is India. Significant judgements are involved in determining the provision for income taxes.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits are available against which deductible temporary differences & tax losses can be utilised. The Management evaluates if the deferred tax assets will be realised in future considering the historical taxable income, scheduled reversals of deferred tax liabilities, projected future taxable income and tax-planning strategies. While the Management believes that the Company will realise the deferred tax assets, the amount of deferred tax asset realisable, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

c) Business combination

Business combinations are accounted for using Ind AS 103, Business Combinations, which requires the acquirer to recognise the identifiable intangible assets and contingent consideration at fair value. Estimates are required to be made in determining the value of contingent consideration, value of option arrangements and intangible assets. These valuations are conducted by external valuation experts. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by the Management.

d) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

e) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease periods relating to the existing lease contracts.

As noted above, the Company enters into leases with third-party landlords and as a consequence the rate implicit in the relevant lease is not readily determinable. Therefore, the Company uses its incremental borrowing rate as the discount rate for determining its lease liabilities at the lease commencement date. The incremental borrowing rate is the rate of interest that the Company would have to pay to borrow over similar terms which requires estimations when no observable rates are available.

f) Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates. The Company uses significant judgements to assess contingent liabilities.

g) Defined benefits and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

h) Share based payments

Employees of the Company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments granted (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value of the options at the date of the grant and recognised as employee compensation cost over the vesting period. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

At the end of each reporting period, the Company revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revisions to the original estimates, if any, in annual consolidated statement of profit and loss with a corresponding adjustment to equity.

The expense or credit recognised in the annual consolidated statement of profit and loss for the period / year represents the movement in cumulative expense recognised as at the beginning and end of that period / year and is recognised in employee benefits expense with a corresponding increase in stock options outstanding reserve in equity. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognised is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

i) Impairment of assets

Investments in subsidiaries, goodwill and intangible assets are tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of the asset or cash generating units to which these pertain is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk adjusted discount rate, future economic and market conditions.

3.3 Summary of material accounting policies

a) Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III of the Act. Operating cycle is the time between the acquisition of resources / assets for processing and their realisation in cash and cash equivalents. Based on the nature of products / services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months.

b) Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Capital work-in-progress includes cost of Property, plant and equipment that are not ready to be put to use and is stated at cost. The cost comprises the purchase price and directly attributable costs of bringing the asset to its working condition for its intended use, cost of replacing part of the Property, plant and equipment, cost of asset retirement obligations and borrowing costs for long term construction projects if the recognition criteria are met. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of Property, plant and equipment is added to its original cost only if it is probable that future economic benefits associated with the item will flow to the Company. All other expenses on existing Property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from disposal of Property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is disposed.

c) Intangible assets

Intangible assets including software licenses of enduring nature and contractual rights acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortisation which is recognised from the date they are available for use and accumulated impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of preparing the asset for its intended use.

Gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is disposed.

Research and development cost

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognised as an intangible asset when the Company can demonstrate:

- technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the asset;
- its ability to use or sell the asset;
- how the asset will generate probable future economic benefits;
- the availability of adequate resources to complete the development and to use or sell the asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during development.

Such development expenditure, until capitalization, is reflected as intangible assets under development.

Following the initial recognition, internally generated intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation of internally generated intangible asset begins when the development is complete and the asset is available for use.

d) Depreciation and amortisation

Depreciation on Property, plant and equipment is provided using the Straight Line Method ('SLM') over the useful lives of the assets estimated by the management.

The management estimates the useful lives for the Property, plant and equipment except for leasehold improvements as follows:

Assets	Useful lives
Buildings*	25 years
Computers*	3 to 5 years
Computers - Servers and networks*	3 to 5 years
Office equipments	5 years
Plant and equipment*	5 years
Plant and equipment (Windmill)*	20 years
Plant and equipment (Solar Energy System) *	10 years
Furniture and fixtures*	5 years
Vehicles*	5 years

*For these classes of assets, based on a technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Thus useful lives of these assets are different from useful lives as prescribed under Part C of Schedule II of the Act.

Leasehold improvements are amortised over the period of lease or useful life, whichever is lower.

Where cost of a part of the asset ("asset component") is significant to total cost of the asset and useful life of that part is different from the useful life of the remaining asset, useful life of that significant part is determined separately and such asset component is depreciated over its separate useful life.

Intangible assets are amortised on a straight-line basis over their estimated useful lives ranging from 3 to 7 years from the day the asset is made available for use.

Intangible assets are amortised on a straight-line basis over their estimated useful lives. The estimated useful lives of Intangible assets are as below -

1. Software - 3 to 7 years from the day the asset is made available for use
2. Acquired Contractual Rights - ranging from 3 to 7 years from the day the asset is made available for use.

Depreciation and amortisation methods, useful lives and residual values are reviewed periodically.

e) Borrowing costs

Borrowing cost includes interest and amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or development of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period in which they occur.

f) Leases

The Company assesses at the inception of contract whether a contract is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

(i) the contract involves the use of an identified asset

(ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and

(iii) the Company has the right to direct the use of the asset

Where the Company is a lessee

The Company recognises right of use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right of use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located.

The right of use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right of use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right of use asset. The estimated useful lives of right of use assets are determined on the same basis as those of property, plant and equipment.

Right of use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

The lease payments shall include fixed payments, variable lease payments based on an index or rate, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right of use asset, or statement of profit and loss if the right of use asset is already reduced to zero.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease expenses associated with these leases are recognised in the statement of profit and loss on a straight-line basis.

g) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on budgets and forecast calculations, prepared for each CGUs to which the individual assets are allocated. To estimate cash flow projections covered by the most recent budgets / forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the services, industries, or country or countries in which the Company operates, or for the market in which the asset is used.

Impairment losses of continuing operations are recognised in the statement of profit and loss, except for assets previously revalued with the revaluation surplus taken to OCI. For such assets, the impairment is recognised in OCI up to the amount of any previous revaluation surplus.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefiting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for the internal management purposes. If recoverable amount cannot be determined for an individual asset, an entity identifies the lowest aggregation of assets that generate largely independent cash inflows. Market related information and estimates are used to determine the recoverable amount. Key assumptions on which the Management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent the Management's best estimate about future developments.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the CGU or groups of CGUs, which benefit from the synergies of the acquisition. The synergy benefits derived from Goodwill are enjoyed interchangeably among segments and the company is of the view that it is not practical to reasonably allocate the same and an ad-hoc allocation will not be meaningful.

h) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

The Company recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. The Company's business model refers to how it manages it's financial assets to generate cash flows. The business model determines whether the cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognised amounts and the company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Subsequent measurement

Non-derivative financial instruments

Financial assets

Financial assets at amortised cost

Financial assets that are held within a business model whose objective is to hold assets for collecting contractual cash flows and whose contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are subsequently measured at amortised cost using the effective interest rate method. The change in measurements are recognised as finance income in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets and the assets' contractual cash flows represent solely payments of principal and interest on the principal amount outstanding are subsequently measured at fair value. Fair value movements are recognised in OCI.

Financial assets at fair value through profit or loss (**FVTPL**)

Any financial asset which does not meet the criteria for categorization as financial asset at amortized cost or at FVTOCI, is classified as financial asset at FVTPL. Financial assets except derivative contracts included within the FVTPL category are subsequently measured at fair value with all changes recognized in the statement of profit and loss.

Net gains or net losses on items at fair value through profit or loss include interest or dividend income received from these assets.

Investments in subsidiaries

Equity investment in subsidiaries are carried at cost less impairment.

Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprises of cash at bank, cash in hand and short term deposits with an original maturity period of three months or less.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derivative financial instruments

The Company uses derivatives for economic hedging purposes. At the inception of hedging relationship, the Company documents the hedging relationship between the hedging instrument and hedged item including whether the changes in cash flows of the hedging instruments are expected to offset the changes in cash flows of the hedged items. The Company documents its objective and strategy for undertaking its hedging transactions.

Derivatives are initially recognised at fair value on the date a derivative contract is entered and are subsequently re-measured at fair value at each reporting date.

For cash flow hedges that qualify for hedge accounting, the effective portion of fair value of derivatives are recognised in cash flow hedging reserve within equity through OCI.

Gains or losses relating to the ineffective portion is immediately recognised in statement of profit and loss.

Amounts accumulated in equity are reclassified to statement of profit and loss in the period when the hedged item affects profit and loss or hedged future cash flows are no longer expected to occur.

Derivatives which do not qualify for hedge accounting are accounted classified as FVTPL.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expired. On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity, if any, is recognised in statement of profit and loss, except in case of equity instruments classified as FVOCI, where such cumulative gain or loss is not recycled to statement of profit and loss.

The Company derecognises financial liabilities when the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in statement of profit or loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices, dealer quotes.

For equity instruments of unlisted companies, in limited circumstances, insufficient more recent information is available to measure fair value, or if there are a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range. The Company recognises such equity instruments at cost, which is considered as appropriate estimate of fair value.

All methods of assessing fair value result in general approximation of value, and such value may never actually be realised. For financial assets and liabilities maturing within one year from the balance sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

Impairment of financial assets

The Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortised cost and financial assets that are debts instruments and are measured at FVTOCI. ECL is the difference between contractual cash flows that are due and the cash flows that the Company expects to receive, discounted at the original effective interest rate.

For trade receivables, the Company recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

i) Revenue recognition

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognised upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved.

"Revenue from the sale of proprietary and third-party term licenses is recognized at a point in time upon delivery of the licenses to the customer. Revenue from time-and-material contracts, volume-based contracts, transaction-based contracts, fixed-price contracts, and other service arrangements is recognized over time as the related services are rendered".

Income from software services and licenses

The Company derives revenues primarily from IT services comprising of software development and related services and from the licensing of software products.

Arrangements with customers for software related services are either on a time-and-material or a fixed-price basis.

Revenue on time-and-material contracts are recognised as and when the related services are performed. Revenue from fixed-price contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

Revenue from licenses where the customer obtains a "right to use" the licenses is recognised at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognised over the access period.

When support services are provided in conjunction with the licensing arrangement and the license and the support services have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. Maintenance revenue is recognised proportionately over the period in which the services are rendered.

Income from services rendered to the company companies is recognised as and when services are rendered and are invoiced using cost-plus mark-up approach.

Revenue from revenue share is recognised in accordance with the terms of the relevant agreements.

Unbilled revenue represents revenue recognised in relation to work done until the balance sheet date for which billing has not taken place.

Unearned revenue represents the billing in respect of contracts for which the revenue is not recognised.

The Company collects Goods and Services Tax on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

Interest

Interest income is recognised on a time proportion basis taking into account the carrying amount and the effective interest rate.

Dividend

Dividend income is recognised when the Company's right to receive dividend is established. Dividend income is included under the head 'Other income' in the statement of profit and loss.

Contract balances

Contract assets

Contract assets are recognised when there are excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liabilities

Unearned and deferred revenue ("contract liability") is recognised when there are billings in excess of revenue.

j) Foreign currency translation

Foreign currency transactions and balances

The functional currency of the company is ₹ (INR).

Initial recognition

Foreign currency transactions are recorded in the functional currency of the Company, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are converted using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates at the date when the values were determined. For foreign currency transactions recognised in statement of profit and loss of the Company uses average rate if the average approximates the actual rate at the date of the transaction.

Exchange differences

Exchange differences arising on conversion / settlement of foreign currency monetary items and on foreign currency liabilities relating to Property, plant and equipment acquisition are recognised as income or expenses in the period in which they arise.

Translation of foreign operations

The company presents the annual standalone financial statements in ₹. For the purpose of the financial statements, the assets and liabilities of the company's foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognised in other comprehensive income and accumulated in equity.

k) Employee benefits

Defined contribution plan

Provident fund

Provident fund is a defined contribution plan covering eligible employees. The Company and the eligible employees make a monthly contribution to the provident fund maintained by the Regional Provident Fund Commissioner equal to the specified percentage of the eligible salary of the entitled employees as per the scheme. The contributions to the provident fund are charged to the statement of profit and loss for the period / year when the contributions are due. The Company has no obligation, other than the contribution payable to the provident fund.

Superannuation

Superannuation is a defined contribution plan covering eligible employees. The contribution to the superannuation fund managed by the insurer is equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contribution to this scheme is charged to the statement of profit and loss on an accrual basis. There are no other contributions payable other than contribution payable to the respective fund.

Defined benefit plan

Gratuity

Gratuity is a defined benefit obligation plan operated by the Company for its employees covered under Company Gratuity Scheme. The cost of providing benefit under gratuity plan is determined on the basis of actuarial valuation performed by independent actuary using the projected unit credit method at the reporting date and are charged to the statement of profit and loss, except for the remeasurements, comprising of actuarial gains and losses which are recognised in full in the statement of other comprehensive income in the reporting period in which they occur. Remeasurements are not reclassified to profit and loss subsequently.

Compensated absences and long service awards

Leave encashment

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Remeasurements, comprising of actuarial gains and losses are recognised in full in the statement of profit and loss. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

The expected cost of accumulating leave encashment is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating leave encashment is recognised in the period in which the absences occur.

Other employee benefits

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for services rendered by employees, are recognised in the statement of profit and loss during the period when the employee renders the service.

l) Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised directly in equity is recognised in equity and not in statement of profit and loss.

Deferred income taxes reflect the impact of temporary differences between tax base of assets and liabilities and their carrying amounts. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except deferred tax liability arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit / loss at the time of transaction. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses, except deferred tax assets arising from initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit / loss at the time of transaction. Deferred tax assets are recognised only to the extent that sufficient future taxable income will be available against which such deferred tax assets can be realised.

In the situations where the Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognised in the period in which the temporary differences originate.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available against which such deferred tax assets can be realised.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised in co-relation to the underlying transaction either in OCI or directly in equity.

m) Segment reporting

In accordance with para 4 of Indian Accounting Standard 108 (Ind AS-108) "Operating Segments" the Company has disclosed segment information only in annual consolidated financial statements which are presented together with the annual standalone financial statements.

n) Earnings per share (EPS)

Basic earnings per share are calculated by dividing the net profit for the period / year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period / year. The weighted average number of equity shares outstanding during the reporting period / year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), if any occurred during the reporting period, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted EPS, the net profit for the period / year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period / year, are adjusted for the effects of all dilutive potential equity shares.

The number of shares and potential dilutive equity shares are adjusted retrospectively for all periods presented for any bonus shares issues including for changes effected prior to the approval of the annual standalone financial statements by the Board of Directors.

o) Provisions

A provision is recognised when the Company has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate of the amount required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

p) Contingent liabilities and commitments

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. Contingent assets are neither recognised nor disclosed in annual standalone financial statements.

q) Share based payments

Employees of the Company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments granted (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value of the options at the date of the grant and recognised as employee compensation cost over the vesting period. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

At the end of each reporting period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revisions to the original estimates, if any, in statement of profit and loss with a corresponding adjustment to equity.

The expense or credit recognised in the statement of profit and loss for the period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense with a corresponding increase in stock options outstanding reserve in equity. In case of the employee stock option schemes having a graded vesting schedule, each vesting tranche having different vesting period has been considered as a separate option grant and accounted for accordingly.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognised is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

The employee stock option expenses in respect of the employees of the subsidiary are charged to the respective subsidiary.

r) Equity

Ordinary shares are classified as equity share capital. Incremental costs directly attributable to the issuance of new ordinary shares, share options and buyback are recognised as a deduction from equity, net of any tax effects.

s) Dividend

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

t) Business Combination

The acquisition method of accounting is used to recognized for all business combinations, when the acquired set of activities and assets meet the definition of business and control is transferred regardless of whether equity instruments or other assets are acquired. The acquisition cost is measured as the aggregate of the consideration transferred and the amount of any non-controlling interest in the acquiree at fair value.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Company recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:

- Consideration transferred and fair value of contingent consideration payable;
- Amount of any non-controlling interest in the acquired business, and
- Acquisition-date fair value of any previous equity interest in the acquired business

over the fair value of the net identifiable assets acquired is recognised as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in OCI and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase is recognised directly in equity as capital reserve.

Business combinations between entities under common control is accounted for using pooling of interest method. The identity of the reserves is preserved as they appear in the standalone financial statements of the Company in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the consideration and the amount of share capital of the acquired entity is transferred to business transfer reserve.

u) Goodwill / Gain on bargain purchase

Goodwill represents the cost of business acquisition in excess of the Company's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognised in the OCI as gain on bargain purchase. Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment losses.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

v) Cashflow statement

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

157.75 (Previous year: 155.85) equity shares of ₹5 each	788.75	782.00	788.75
Issued, subscribed and fully paid-up share capital	**788.75**	**782.00**	**788.75**

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and longterm and other strategic investment plans. The funding requirements are met through equity, borrowings and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

a) Reconciliation of the shares outstanding at the beginning and at the end of the year

The reconciliation of the number of shares outstanding and the amount of share capital is set out below:

(No. In Million)

	As at September 30, 2026		As at September 30, 2025		As at March 31, 2026	
	No of Shares	In ₹ Million	No of Shares	In ₹ Million (Restated)	No of Shares	In ₹ Million (Restated)
Number of shares at the beginning of the reporting period	155.85	788.75	155.85	779.25	155.85	779.25
Add: Changes during the reporting period	-	-	0.55	2.75	1.90	9.50
Number of shares at the end of the reporting period	**157.75**	**788.75**	**156.40**	**782.00**	**157.75**	**788.75**

b) Terms / rights attached to equity shares

The Company has only one class of equity shares having a par value of ₹5 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividend in Indian rupees.
In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders. However, no such preferential amounts exist currently.

c) Aggregate number of shares bought back during the period of five years immediately preceding the reporting date

In the period of five years immediately preceding September 30, 2026, the Company has not done any buyback of shares.

d) Details of shareholders holding more than 5% shares in the Company

Name of the shareholder*	As at September 30, 2026		As at September 30, 2025 (Restated)		As at March 31, 2026 (Restated)

	September 30, 2026	September 30, 2025	September 30, 2026	September 30,	March 31, 2026
	In ₹ Million	In ₹ Million (Restated)	In ₹ Million	In ₹ Million (Restated)	In ₹ Million (Restated)
India	3,734.45	3,373.43	7,627.24	6,619.50	13,042.84
North America	38,765.20	29,193.16	73,598.55	56,347.64	121,762.16
Rest of the World	2,442.06	2,362.88	4,893.93	4,543.17	9,474.59
	44,941.71	**34,929.47**	**86,119.72**	**67,510.31**	**144,279.59**

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognised as at the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognised corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material and unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency. The normal credit term is 30 to 90 days.

24. Other income

***Fair value hierarchy:**
The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. In respect of equity instruments of unlisted companies, in limited circumstances, insufficient more recent information is available to measure fair value, or if there are a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range. The Company recognises such equity instruments at cost, which is considered as appropriate estimate of fair value.

Significant Unobservable Inputs Used in Level 2 Fair Values

Financial Instrument	Valuation Methods and Assumptions
Derivative instruments (assets and liabilities)	The Company enters into derivative financial instruments with various counterparties, primarily banks with investment-grade credit ratings. Derivatives are valued using valuation techniques with market-observable inputs, mainly foreign exchange forward contracts. The valuation models incorporate inputs such as the credit quality of counterparties, foreign exchange spot and forward rates, and forward rate curves of the underlying instruments.
Treasury Bonds	Fair value of bonds is determined using the discounted cash flow (DCF) approach with yield-to-maturity (YTM) rates.

Significant Unobservable Inputs Used in Level 3 Fair Values

Type	Valuation Techniques	Significant Unobservable Inputs	Inter-relationship Between Significant Unobservable Inputs and Fair Value Measurement
Contractual obligation	Discounted cash flow method. The valuation model considers the present value of expected payments discounted using a risk-adjusted discount rate. Expected payments are determined by considering possible scenarios of forecast EBITDA, the amount payable under each scenario, and the probability assigned to each scenario.	• • Forecasted EBITDA (₹ 134 Million - ₹ 3,112 Million) as at September 30, 2026 • Risk-adjusted discount rate (3%-9.5%) as at September 30, 2026	The estimated increase/(decrease) in the fair value of the contractual obligation would not be significant for a 10% sensitivity in the significant unobservable inputs.

Fair Value of Financial Instruments
Financial Instruments at FVTPL & FVTOCI
The financial instruments being carried at FVTPL and FVTOCI is at their respective fair value.

Financial Instruments at Amortised Cost
The Management assessed that fair value of Trade receivables, Unbilled revenue, Other financial assets, Borrowings, Lease liabilities, Trade payables and Other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of Investment in Bonds is as per the table below:

Particulars	March 31, 2026		March 31, 2025	
	Carried Value	Fair Value	Carried Value	Fair Value
Bonds carried at amortised cost	3030.69	4571.87	2368.97	5893.87
Add: Interest accrued on bonds	126.63	-	165.26	-
Total investments carried at amortised cost	**3,157.32**	**4,571.87**	**2,534.23**	**5,893.87**

The following methods and assumptions were used to estimate the fair values:
i)The fair value of the quoted bonds and mutual funds are based on price quotations at reporting date.
ii)Mark to market on forward covers and embedded derivative instruments is based on forward exchange rates at the end of reporting period and discounted using G-sec rate plus applicable spread.
iii)For equity instruments of unlisted entities, in limited circumstances where sufficient recent information is not available to determine fair value, or where a wide range of possible fair value estimates exists and cost represents the best estimate of fair value within that range, the Group measures such investments at cost. In such cases, cost is considered an appropriate estimate of fair value.

There are no transfers in between levels 1, 2 and 3 during the quarter and six months ended 30 September 2026, 30 September 2025 and for the year ended 31 March 2026.

Level 3 fair value measurements

The reconciliation of the carrying amounts of financial instruments classified within Level 3 is as follows:

	Investments in other equity instruments	Liability towards contingent consideration	Payable to selling shareholders
Balance at April 1, 2026	6.00	238.54	58.77
Acquired during the year	-	15.22	0.24
Disposed during the year	-	(99.06)	(34.96)
Balance at 30 September, 2026	**6.00**	**154.70**	**24.05**
Balance at April 1, 2025	6.00	228.11	283.71
Acquired during the year	-	20.17	1.10
Disposed during the year	-	(11.10)	(226.93)
Balance at 30 September, 2025	**6.00**	**237.18**	**46.27**
Balance at April 1, 2025	6.00	228.11	283.71
Acquired during the year	-	41.18	1.99
Disposed during the year	-	(30.75)	(226.93)
Balance at 31 March 2026	**6.00**	**238.54**	**58.77**

Total amount included in profit and loss account for unrealised gains/ losses on Level 3 instruments.

a	**Claims against the company not acknowledged as debt***			
1	**Indirect tax matters**			
	(i) In respect to the order passed by the Learned Principal Commissioner of Service Tax, Pune, for Service tax under import of services on reverse charge basis for the Financial Year 2014-15, the Company has filed an appeal against the order passed by Learned Principal Commissioner of Service Tax, Pune with the Hon'ble Central Excise and Service Tax Appellate Tribunal (CESTAT) on September 23, 2017. The Company has paid ₹ 165.58 Million under protest towards the demand and the same forms part of the GST receivable balance. If the appeal filed as mentioned above results in a demand, there will be no impact on the profitability as the Company will be eligible to claim credit / refund for the amount paid.	173.78	173.78	173.78
	(ii) Other pending litigations in respect of indirect taxes.	935.38	723.33	1,099.19
2	**Income tax demands disputed in appellate proceedings.**	1,072.05	1,015.51	1,554.69
b	**Capital Commitments**			
	Estimated amount of contracts remaining to be executed on capital account and not provided for	302.61	276.41	502.01

* The Company, based on independent legal opinions and judgments in favour of the Company in the earlier years, believes that the liabilities with respect to the above matters is not likely to arise and therefore, no provision is considered necessary in the condensed standalone interim financial statements.

32. Letter of comfort on behalf of subsidiaries

1	Guarantees given on behalf of subsidiaries	16.29	902.90	16.11

(This space is intentionally left blank)

33. The Company has deposits of ₹ 371.25 Million (corresponding period /previous year: ₹ 408.88 Million) with the financial institutions viz. Infrastructure Leasing & Financial Services Ltd. (IL&FS) and IL&FS Financial Services Ltd. (referred to as "IL&FS Group") as on the balance sheet date.These were due for maturity from January 2019 to June 2019. In view of the uncertainty prevailing with respect to recovery of outstanding balances from IL&FS Group, Management of the Company has fully provided for these deposits along with interest accrued thereon till the date the deposits had become doubtful of recovery.
During the period the Company has received ₹ 37.63 Million from the IL&FS Group and the Management is hopeful of recovery of balance amount with a time lag. The Company continues to monitor developments in the matter and is committed to take steps including legal action that may be necessary to ensure full recovery of the said deposits.

34 On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing labour laws. The Ministry of Labour & Employment published draft Central Rules and FAQs to facilitate assessment of the financial impact due to changes in regulations. The Company has considered restructured compensation of its employees with effect from April 1, 2026, and assessed the impact of the changes, consistent with the Labour Codes, draft rules, FAQs and legal opinion. Considering that the impact is non-recurring in nature and is driven by regulatory changes, the Company has presented such incremental impact of ₹ 890.25 million as "Statutory impact of new Labour Codes" under "Exceptional Items" in the standalone statement of profit and loss for the year ended March 31, 2026. The Company continues to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effect on the basis of such developments as needed.

35 The Members of the Company at the 36th Annual General Meeting ('AGM') held on August 3, 2026, approved the following businesses with requisite majority:

a Proposed acquisition of 100% of the outstanding share capital of Nagarro SE, a global digital engineering and IT consulting company headquartered in Munich, Germany with its securities listed on the Frankfurt Stock Exchange (the 'Target Company'/ 'Nagarro') through BidCo at EUR 81 per share.

b The issuance of Corporate Guarantee up to EUR 1,540 million in favour of BidCo, to secure the bridge financing facility of EUR 1,400 million from Barclays Bank PLC, through consortium, along with creation of pledge on:

• the Company's shareholding in BidCo;

• receivables by the Company from BidCo or its subsidiaries arising out of inter-Company loans, and

• any other security over any other asset or property as may be agreed by the Company and the Lenders, if necessary, on such terms and conditions as forming part of the facility agreement.

c Approval of the payment of a final dividend of ₹ 18 per equity share for the Financial Year 2025-26 was obtained and accordingly, an amount of ₹ 2,838.47 millions was paid towards the Final Dividend as of September 30, 2026, out of the total dividend amount of ₹ 2,839.50 millions.

(Note: The balance amount of ₹ 1.03 millions remains unpaid due to non-availability of valid bank account details, incomplete KYC particulars, or other banking-related validation issues pertaining to certain shareholders. The Company, through its Registrar and Transfer Agent, has communicated with the concerned shareholders at their registered contact details and will remit the dividend upon receipt of the requisite information. The Company will make due efforts to pay the same to the respective Shareholders.)

36 Based on the recommendation of the Board of Directors at its meeting held on September 2, 2026, the Members of the Company at the Extraordinary General Meeting ('EGM') held on October 5, 2026, approved the following businesses with requisite majority:

a Approval for availing long term Debt Financing by way of including but not limited to External Commercial Borrowing (ECB), Non-Convertible Debentures (NCDs), and other similar instruments or any combination thereof in accordance with the applicable laws, for an aggregate amount not exceeding USD 1,250 million (USD One Billion Two Hundred and Fifty Million only), in one or more tranches;

b Approval for raising funds by way of issuance securities or eligible instruments including equity shares, debt securities convertible into equities, or any other securities convertible into equity shares or a combination of such securities; through Foreign Currency Convertible Bonds (FCCB), Preferential Issue, Qualified Institutional Placement (QIP), or any other permissible mode or any combination thereof not exceeding USD 450 million (USD Four Hundred and Fifty Million) in accordance with the applicable laws, in one or more tranches; out of aggregate amount not exceeding USD 1,250 million (USD One Billion Two Hundred and Fifty Million only)

37 Based on the approval of the Board of Directors of the Company at its meeting held on January 20, 2026, the tranche of 400,000 Equity Shares of ₹ 5 each were allotted to the PSPL ESOP Management Trust ('ESOP Trust') on October 2, 2026, at an allotment price of ₹ 5 per Equity Share, aggregating to the total consideration of ₹ 2 millions.

Consequent to this, the paid-up share capital of the Company will increase from 157,750,000 Equity Shares of INR 5 each (aggregating to ₹ 788.75 millions) to 158,150,000 Equity Shares of ₹ 5 each (aggregating to ₹ 790.75 millions).

38 Persistent Systems Limited (the 'Company') secured an aggregate shareholding of approximately 94.04% of Nagarro SE (excluding treasury shares) as of October 6, 2026, by way of a Voluntary Public Takeover Offer (the 'Open Offer') as mentioned below:

a The Company secured a stake of approximately 22.10% shareholding (excluding treasury shares) through Share Purchase Agreement executed by M/s. Galaxy Germany Holding SE ('WOS'/BidCo') with Lantano Beteiligungen GmbH on June 26, 2026.

b The Company secured a stake of approximately 7,568,145 shares, representing approximately 61.15% of Nagarro SE's ('Nagarro') outstanding share capital (i.e., excluding treasury shares) by way of the Open Offer during the acceptance period commenced from August 6, 2026, to September 17, 2026.

c The Company secured a stake of approximately 1,335,114 shares, representing approximately 10.79% of Nagarro SE's ('Nagarro') outstanding share capital (i.e., excluding treasury shares) by way of the Open Offer during the additional acceptance period commenced from September 23, 2026, to October 6, 2026.

39 Restatement of Standalone Financial statements

A) Consolidation of PSPL ESOP Management Trust (the 'Trust')

The Company had formulated an Employee Stock option Plan (ESOP) where the company granted stock options to employees and the shares will be issued to employees at the time of exercising the options through PSPL ESOP Management Trust (the 'Trust'). The Company has granted a loan to the Trust for acquisition of shares of the Company and those shares will be issued to employees at the time of exercising options under Stock Option Plan. The Trust was identified as a subsidiary. Accordingly, in the standalone financial statements, the Company had adopted the policy of considering the trust as a legal entity separate from the Company and therefore, was not consolidating the Trust in the standalone financial statements. The Company recognized the loan given to the Trust as financial asset and tested it for impairment on a periodic basis in accordance with the requirements of applicable accounting standards. However, given that the Trust was identified as a subsidiary, in the consolidated financial statements of the Company, the Trust was consolidated and consequently, the related loan to Trust (including interest) appearing in the standalone financial statements of the Company was eliminated.

During the period ended 31 December 2025, the Company changed its accounting policy whereby it decided to consolidate the Trust in the standalone financial statements to reflect a more appropriate presentation of the activity of the Trust in the standalone financial statements as the Trust carried out activities on behalf of the Company. Consequently, in the standalone financial statements of the Company, the loan given to the Trust (including interest) is eliminated.
This change in accounting policy in the standalone financial statements has been given effect by restating the comparative information for the preceding period in accordance with the requirements of applicable standards for change in accounting policy.

B) Merger with Arrka Infosec Private Limited

The Board of Directors of the Company at its meeting held on April 24, 2025 had approved the Composite Scheme of Arrangement (the 'Scheme') for merger of Persistent Systems Limited, parent company and Arrka Infosec Private Limited, wholly owned subsidiary of the Company. The Scheme of Amalgamation by absorption was approved by the NCLT Bench of Mumbai, on April 21, 2026 for the merger of the parent company and subsidiary. Further, the certified copy of the said Order was effective upon its submission to the Registrar of Companies, Pune on May 12, 2026. In accordance with IND AS 103, the merger has been accounted on April 1, 2025 and accordingly, the financial statements for the corresponding and comparative year have been restated. The reserves and surplus have decreased by Rs.9.25 million on April 1, 2025.
